Dear NYSERDA NY NYSERDA NY,

Dear NYSERDA President and CEO Harris,

I witnessed 9/11 from my rooftop in Brooklyn. Now my family and I live 11 minutes away from the Indian Point nuclear plant. Living in the shadow of radioactive waste is TERRIFYING. When I registered my children for preschool, I received a form authorizing iodine treatment. This is our normal. Whether it's an earthquake disrupting the Ramapo fault line, a terrorist attack, a human error or aging infrastructure, our lives and everything around us is always threatened.

Nuclear is unsustainable. Nuclear is not a solution, but a way to sideline the effectiveness of our green house reduction goals. If you don't believe me, come live near us!

Sincerely,
Cristina Alvarez-Arnold

Sincerely,
Cristina Arnold
